### SEED

ZIEGLER, Rob  
“The near-future United States of Ziegler’s impressive debut is dominated by Satori, a bioengineering megacorporation only nominally answerable to the weak government that distributes Satori’s genetically modified seed stock to migrants in a land ravaged by climate change. When Satori engineer Pihadassa, the seeds developer, goes rogue, agent Sienna Doss heads out to capture her and persuade her to work for the government... Fans weary of common postapocalyptic tropes will greatly appreciate Ziegler’s imaginative world-building, vivid writing, and compelling and racially diverse cast full of unique voices.” – *Publisher’s Weekly*
